PICKENS, S. C.

PUBLISHED WEEKLY

JUNE 21, 1917

Entered at Pickens Postoffice as Second Class Mail Matter.

\$1.50 A YEAR, INVARIABLY IN ADVANCE

GARY HIOTT, Manager.

Obituary notices and tributes of respect of not more than one hundred words will be printed free of charge. All over that number must be paid for at the rate of one cent a word. Cash to accompany manuscript. Cards of thanks published for one-half cent a word.

Imagine yourself a Frenchman and try this on your ukelele:  
Ain't no Yankee,  
But I'm fightin' some;  
I'll hold the Germans  
Till the Yankees come.

A CAPITAL fellow—the millionaire.  
THIS seems to be the fall season for crowned heads.

THE more the high cost of living is investigated the higher it goes.

THE country cousins are beginning to receive letters from their city relatives.

IN spite of his name, Captain Dollar is a pessimist. He predicts hard times after the war.

IF the women love dress like some people say they do, it looks like they would wear more of it.

A DOLLAR mark is a crooked thing to look at, but that doesn't mean that a man should be crooked to get dollars.

WE have with us this week the three longest days of the year. Thursday, Friday and Saturday are all the same length.

"It costs more now to live than ever before," moaned the pessimist. "Yes," replied the optimist, "but it's worth more."

COTTON is selling in New York at 25 cents the pound, the record price since 1871. But somehow cotton makes powerful poor rations.

N. G. EVANS, who is a candidate for speaker of the house of representatives, may be o. k., but his initials look too significant to suit us.

SINCE so much cotton has been reported killed, it is not too late to plant that land in corn. We'll probably need some corn before the war is ended.

WE've been writing for our patient readers some time, now, so they will please excuse us while we drop the fish a line.

WE dedicate this one to good old Augustus Gossett of Westminster, S. C.: It's better to have loved a short girl than never to have loved a tall.

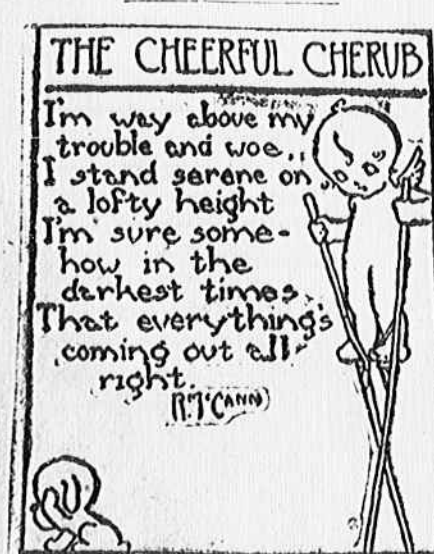

IF you can't have your own way all the time about everything, run a bluff and make out the other fellow's way was your way, anyhow, and let it go at that.

JUDGING by the description of their destructiveness, those things which are destroying the cotton in Anderson and other counties must be German army worms.

ONE of our claims of being an optimist is that a few hours after eating cucumbers we are glad that the middle part of our carcass is not as large as Col. William Banks'.

MISTER DOOLEY had it about right when he said: "I'm naught troubled when th' naggur is amon'st his oppressors, Hipness. Phot troubles me is when he falls into th' hands of his liberators."

OUR WEEKLY RIDDLE.—What animal is that from which, if you take off the tip of its tail, you make a first-rate Jew?  
Rabbit—Rabbi.

## A War of Defense

There are a lot of us who are not in favor of going to war except to defend our country against invasion. But when we fight the Germans in Europe we are doing that very thing. If the Germans are not whipped in the present war it is a foregone conclusion that they will attempt to invade this country. In fact they have already offered Mexico a section of our country if Mexico would help them in this war. And how could they give any of this country to Mexico unless they came over here and took it away from us? Now is the time to subdue Germany.

WE do not know whether there is any truth in the interesting report, but we hear that a young lady has broken her engagement with Watsing Bell. The report says she was going to marry him for his money and he went out last Saturday night and spent it.

WHILE the information Col. McKissick of the Greenville News gives us about the "caryophyllus aromaticus" is highly appreciated, it comes too late to be of any practical value. We will bear it in mind, however, in case we ever have a chance to try it out.

THE Germans gave another demonstration of their kultur last week when they bombed London from the air, killing sixteen women and twenty-six children, besides wounding 122 women and 94 children. It was probably particularly pleasing to the Germans that they blew up a school house, killing ten children and injuring fifty others.

WHAT is home without a paper; What are all the joys we meet, When we're ignorant of the topics That are talked of on the street?

## WITH THE BRETHREN

### Awgwan!

Gaffney Ledger.  
And now we laugh some more at Gary Hiott's foolishness.

### A Hint to the Wise

Greenville News.  
Referring to the State Press Association meeting at Beaufort, Editor Hiott of The Pickens Sentinel says that he would like to go and will do so "if we can make the necessary arrangements." This word to The Sentinel's delinquent subscribers should be sufficient.

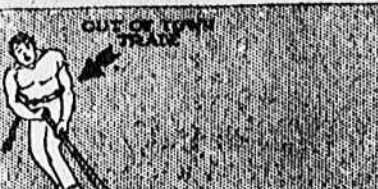

### Erroneous Reoprt

Jeffersonian.  
It is reported that Gary Hiott writes his sunny squiblets and does the trick while flirting with the chiggers running up and down his back.

### Busy Railroads

Tugaloo Tribune.  
One good thing about the Tallulah, Falls, the Pickens and the Blue Ridge railroads, and that is they have not had to call the commission for the purpose of discontinuing trains.

## Pull Hard For Home Trade

Join the HOME BOOSTERS' team.  
This is YOUR TOWN.  
BE NEIGHBORLY.  
Let the HOME merchant fill your needs.  
He can and will fill them AS CHEAPLY as the out of town merchants.  
Keep that dollar of yours IN THIS TOWN.

## IT WILL COME BACK TO YOU

You can tell who the live merchants of Pickens are by reading the advertisements in this paper. Trade with those who advertise.

Putnam and Diamond Dyes. Keowee Pharmacy.

### Wright!

Columbia Record.  
We hear a lot about this General Haig. But what we want to know is, what has become of the firm of Haig & Haig.—Pickens Sentinel.  
O lad, the thirst for that same knowledge gives us a sharp and agonizing kink right in the middle of our degenerate diaphragm.

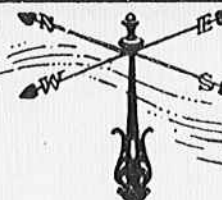

## We're Poor; They're Rich

Greenville News.  
Editor Gary Hiott of The Pickens Sentinel will register Tuesday, but Editor DeCamp of the Gaffney Ledger has de-camped to Hot Springs, Arkansas, while Editor Booker of the Spartanburg Journal has interned himself in a Spartanburg hospital, although he is expected to be out Wednesday.

## Winthrop College SCHOLARSHIP and ENTRANCE Examination

The examination for the award of vacant scholarships in Winthrop College and for the admission of new students will be held at the County Court House on FRIDAY, JULY 6, at 9 A. M. Applicants must not be less than sixteen years of age. When Scholarships are vacant after July 6 they will be awarded to those making the highest average at this examination, provided they meet the conditions governing the award. Applicants for scholarships should write to President Johnson for scholarship examination blanks. These blanks, properly filled out by the applicant, should be filed with President Johnson by July 1. Scholarships are worth \$100 and free tuition. The next session will open September 19, 1917. For further information and catalogue, address PRESIDENT D. B. JOHNSON, Rock Hill, S. C. 4

## Winds Vary, but LUZIANNE -Never!

The Luzianne Guarantee:

# ARE SHOES PRICED TOO HIGH?

## Read These Facts and Figures and You Will Be Amazed.

You will wonder how it is possible to produce them at the prices asked. You will wonder why they are not priced higher.

Compare shoes, the wear they get and the pleasure they give you with any other article of wearing apparel and you will appreciate that shoes are really the cheapest article in your wardrobe.

Shoes are made from skins that grow on the backs of animals. These animals are not raised for their skins, but for meat, for milk, or for beasts of burden. The skins of animals are available for shoes only as these animals are slaughtered for food.

Consider the price you pay for meat at the butcher shop. Does this tell you anything? Consider the price a farmer or stock grower gets for a beef steer.

Do you know why? It is the ever increasing world demand for cattle for food and hides for leather. Higher prices for beef, higher prices for hides which go to make shoes, harness, belts, upholstery, and hundreds of other articles which cost you more money today.

Leather is not all. There are 65 other items of materials necessary to make shoes. But leather and supplies are not all that go to make shoes.

There is labor. Men and women, boys and girls, must do their part. Labor is one of the big considerations. You know how everyone is employed. Never in history has there been such complete employment at high wages. Did you know that it requires the hands of 300 people to produce a woman's shoe and get it ready for wearing? Did you know that it requires 110 machines? You may have an idea that shoes are made in one machine—that the shoe was completed in one operation. Did you know that there are 135 separate and distinct operations necessary for each shoe, or 270 separate operations for each pair?

Why are shoes priced so low? Because shoe manufacturers and retailers have used brains, skill, scientific methods, and kept prices down. Think it over. Shoes are not priced too high. By every rule of economical production it is a wonder they are not higher.

Yours truly,

**FOLGER, THORNLEY & CO.**
